Right Task, Right Time

FarmOps has been **DEVELOPED BY OUR VETS** and **RECOMMENDS THE RIGHT TASK AT THE RIGHT TIME** to Dairy and Beef farmers who want to see real progress.

### Breeding Season 2021 - Like no Other with FarmOps

Your cows and heifers are treated as two separate herds and are analysed separately daily for the following 6 parameters. Each day you will receive

1. Number of animals expected in heat today – based on serves and cows calved long enough to be served.

2. Actual animals due to repeat either from a previous serve or a heat recorded pre breeding.

3. Target number of valid serves to date based on your herd's calving pattern, actual number of valid serves and the number of invalid serves eg 1 day repeat etc

4. Number of cows calved 35 days not served and their identities.

5. Number of potentially empty cows in the herd calculated based on the number served and the expected conception rate for your herd.

6. The number of mature fertile bulls required to serve the number of empty cows remaining in the herd.

# Download Your FREE TRIAL Today

FarmOps Milk Recording Module, featuring new Lifetime Margin analyser, wins Top Innovation Awards at Recent Virtual National Dairy Show 2020

# HERD MANAGEMENT

Milk Recording

The only accurate way of measuring how your herd is performing.

Herd Health

Identify and manage what diseases are limiting your herd.

Pregnancy Testing

Convenient testing through milk recording samples with no extra work or handling of cows with a 95% accuracy.

## INTRODUCING OUR NEW Milk Recording Lifetime Summary Report

- For the very first time, this new report will illustrate both **PROFITABILITY** and **PERFORMANCE** of cows within a herd.
- For the first time the **MILK RECORDED LIFETIME** information for the cow is available **AFTER EACH TEST**.
- For the first time dry days are included to rank cows.
- The Margin per day brings all of your milk recording data into one figure.

# MANUAL MILK RECORDING

## COVID 19 CUSTOMER PROTOCOLS

### BEFORE THE MILKING

Complete customer health checklist with your Milk Recorder

Discuss and plan the milk recording with your Milk Recorder

### PLEASE PROVIDE THE FOLLOWING

A fresh footbath for the Milk Recorder

Handwashing facilities, clean bucket of fresh water will suffice for the Milk Recorder, soap and paper towels – no cloth towels.

A bag or bin for disposable gloves.

Please inform your Milk Recorder ahead of a farm visit if you or any member of your family have developed COVID 19 symptoms or are a close contact of a positive case, are isolating or test positive for COVID 19.

### DURING THE MILKING

- ✓ Keep 3 units/cups/clusters away from each other at all times.
- ✓ If not possible alternate person in the parlour, recorder takes samples after farmer has hung up clusters and call out cow numbers from distance.
- ✓ Only one milker in the parlour during the recording.

Please wear a face covering during the milk recording

# BEEF SIRES FOR THE DAIRY HERD

○ Exclusively selected for the Dairy Herd

○ Quality Saleable Calves

○ No Compromise on Dairy Profitability

## The Complete Package

security of calving ease

short gestation

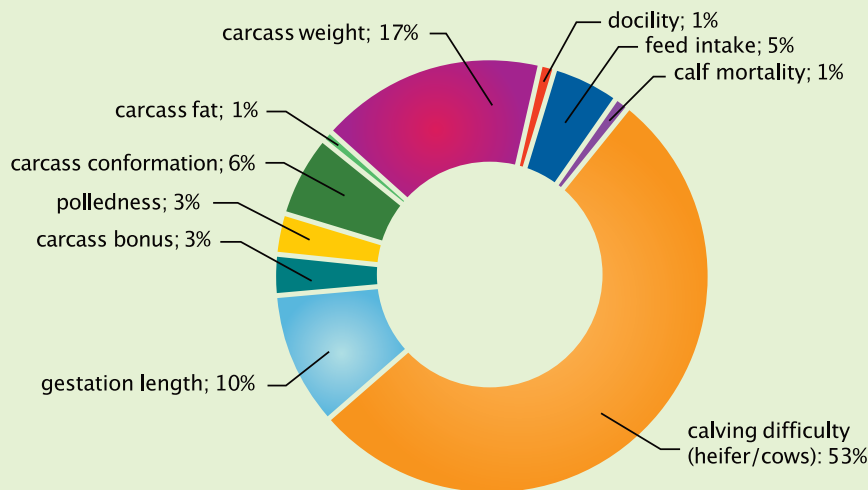

beef value maximised

## Selecting Beef Sires for Your Dairy Herd

1. Decide which breed you wish to use.
2. Select a different sire for your maidens, 2nd calvers, cows and mature cows.
3. Then select the highest beef value within your calving range.

## Traits included in the Dairy Beef Index (Spring 2021)

### Calving Difficulty Ready Reckoner

Old Range	Dairy Heifer	Dairy Cow
0.1% to 2.4%	6.7	2.7
2.5% to 3.4%	8.0	3.5
3.5% to 4.4%	10.1	4.7
4.5% to 6.0%	13.2	6.7
6.1% to 7.3%	15.9	8.5
>=7.4%	18.1	9.8

## OTHER BREEDS

### FLECKVEIH

Fleckvieh cows are healthy and robust with good fertility and a long productive life. High performance potential for milk and beef.

- Breed average (Austria) 7,700 kgs 4.15% Fat, 3.43% Protein
- Increase in milk production from first to third lactation
- Increase lifetime milk production
- Strong udders with good texture and correct teat placement
- Strong feet and legs

Crossbreeding with Fleckvieh  
Fleckvieh is ideally suited for crossbreeding with Holstein & Jersey:

- Reduced mastitis and somatic cell counts
- More body reserves, substance and muscling in dairy cows
- Improved beef traits of calves (including higher returns for culled cows)
- Healthy cows with a good longevity
- Robust
- High longevity
- Health
- Beef Merit

#### Sires Available

DAX  
ICEBREAKER  
GS RENEGADE  
ROLLS  
VARTA

WEISSENSEE  
GS WALLIS 7  
GS WIZZARD  
HONGKONG

### MRI Rotbunt DN

The MRI breed is an old Red & White dual purpose breed, coming from the basin of the three rivers Meuse, Rhine and IJssel, from which the name is derived.

The strong points of MRI are:

- High protein percentage
- Good fat and protein
- Robust

#### Crossbreeding

Currently more than 20% of all MRI inseminations in Holland are used for crossbreeding on Holstein cows. Farmers who need more strength

and robustness, as well as farmers who operate on a more low cost, extensive system, should consider the MRIJ breed as an option for crossbreeding. MRIJ's:

- Excellent fertility
- Healthy cows
- Excellent body condition
- Long living cows
- High protein
- High protein content
- Strong muscularity
- Good fertility

#### Sires Available

WOESTE POLDER JARKO  
DE VINKENHOF LAKE  
MEERVELDER RODA  
TUKKER

MARCELLO  
SATURNUS  
MUSTANG  
JACUZZI

### Danish Jersey

The breeding goal for Viking Jersey is a healthy cow with good fertility, functional conformation and high production. The breeding goal is described in our NTM Index (Nordic Total Merit), which is an economic index, ensuring maximum progress for all economically important traits and best success for the farmers.

Breed Average

7400 kgs milk 5.93% Fat, 4.19% Protein, 749 kgs milk solids

- Longevity
- Solids
- Efficiency

### Ayrshires & Scandanavian Reds

Scandinavian Reds excel for health. Disease resistance, longevity and mastitis resistance and important traits .

The Viking Red and Semex Ayrshire breeding programmes are large scientific based breeding programmes that deliver real results. They make extensive use of genomics and progeny testing to drive progress

- Disease Resistance
- Solids
- Efficiency

#### Sires Available

BIGSTAR (AY) B JURIST (SR) LEKVE (NR)  
RAVN (NR)

### Milking Shorthorn

We pick the best Milking Shorthorns from around the world. The Canadian and Austrian programmes have consistency delivered. We also select the very best Irish bred bulls. Milking Shorthorns deliver robustness longevity and fertility.

**Sires Available** BENTLY (MS) CONRAD (MS) ST CLARE (MS)

# SPECIAL OFFER

for Munster Bovine Customers\*

To reward your loyalty, FarmOps is  
available for **FREE** until Dec 31<sup>st</sup> 2021.

DOWNLOAD IT TODAY TO GET STARTED!

\* Available to Dairy customers who participate in a Milk Recording Programme AND use Munster Bovine Breeding Services.  
\* Available to Beef Customers who use Munster Bovine Breeding Services - Min of 20 straws / AI Tech serves.

## PRICING FROM JAN 1<sup>ST</sup> 2022

### STANDARD BEEF HERD

**€149**/HERD/YEAR EX VAT

#### What's included?

- ✓ Register calves & record animal movements
- ✓ Record medicines & withdrawal management
- ✓ View Animal Records
- ✓ Record weights
- ✓ Record all events including BCS, scans, serves, heats, weight, dry off, etc

### STANDARD DAIRY HERD

**€149**/HERD/YEAR  
**+€0.50**/ANIMAL/YEAR EX VAT

#### What's included?

- ✓ **All Standard Beef features**
- ✓ SCC treatment effectiveness
- ✓ Dry off treatment plan
- ✓ Fertility & breeding
- ✓ Production
- ✓ Herd Health
