MUNSTER BOVINE
Collectively Improving Farm Life

DAIRY BEEF PROGRAMME 2026

Exceptional Genetics

Proven Performance

Unmatched Peace of Mind

Updated ICBF Evaluation Mar 26

Genetics designed for high-performance dairy systems-with calves that deliver too.

Calf value matters more than ever.

The National Cattle Breeding Centre (NCBC) runs Ireland's largest and most proven dairy-beef breeding programme, backed by rigorous sire selection and the largest dataset on field fertility, calving and carcass traits.

The goal: maximise the value of your calf crop without compromising calving ease, milk production or solids.

5 Steps to Choosing the Right Sires

Put Your Farm at the Centre

We know every farm is different. Good breeding outcomes start with focusing on what matters most to your farm.

Use these simple steps to select a bull team that delivers predictable, profitable results.

1. Choose the breed that suits your system.
2. Match calving difficulty % to cow age and lactation number.
3. Use shorter gestation sires at the end of the season.
4. Increase your calf crop value with high BSI sires that increase CBV.
5. **Focus on Proven Premium** – backed by hundreds of on farm records on fertility, calving ease, gestation and calf quality, removing the uncertainty and delivering repeatable results.

Simple Guide to NCBC Sires Classification

Our classification system makes complex data ***genomics, reliability, fertility and performance*** simple to apply.

Elite Genomic Test Sires

High-genomic young sires for selective use. Semen quality is verified by NCBC Labs

Rising Stars

Balanced, high-CBV sires with strong early performance. Proven for Field Fertility

Proven Sires

Backed by hundreds of records. Proven for field fertility, calving ease & calf quality

Premium Proven Sires

Elite Sires, cream of the crop, balanced sires, superior in all commercially important traits with huge farmer satisfaction

EXCEPTIONAL DAIRY BEEF GENETICS

TO GROW YOUR PROFITS

PROFITABILITY BEGINS WITH MILK SOLIDS

- Highest conception rates
- Superior Fertility
- Easy Calving & Short Gestation
- Unrivalled calf quality at 3 weeks
- High Calf Beef Value (CBV)

Making the Right Breeding Decisions! It Comes Down to the Predictability You Need.

Every farm uses a mix of breeding tools – the key is choosing the one that gives you certainty and control during the busiest time of the year.

Why More Dairy Farmers Are Choosing AI

1. Large choice of sires to use depending on parity
2. Proven calving ease
3. Fewer empty cows
4. Consistent calf quality from day one
5. Superior Genetics
6. Reliable conception rates
7. Short gestation options
8. Better planning

NCBC AI Sires are unrivalled on data reliability, giving you fewer surprises, tighter calving, better calf value and unmatched peace of mind.

NCBC AI SIRES FOR PREDICTABLE RESULTS
