

MUNSTER
BOVINE

Collectively Improving Farm Life

Alternative Breeds
2022

AI Technician Service

Munster Bovine offer the
BEST VALUE IN IRELAND
 Through Our Team of Technicians
 and Our Team of Sires

**First Insemination:
 Munster's Best Sires (Straw)
 + Insemination Fee
 = €28**

**Repeat Insemination:
 Munster's Best Sires (Straw)
 + Insemination Fee
 = €12**

Enabling You To Achieve the Highest Genetic Merit and the Highest Pregnancy Rates
 9 weeks breeding for 100 cows @ €40/Cow (0.74 c/l) – Resulting in 91 High Value Calves

	Cows Bred	Number of Visits @ 7 each	Visit's Total Cost	Premium Straws & Inseminations	Premium Straws & Inseminations Total Cost	Total cost of Premium Straws & Inseminations & Visits
1st 3 Weeks	100	21	€147	100 1st @ €28	100 @ €28 = €2,800	€2,947
2nd 3 weeks	45	21	€147	45 Repeats @ €12	45 @ €12 = €540	€687
3rd 3 weeks	20	20	€140	20 Repeats @ €12	20 @ €12 = €243	€383

INCLUDES 62 FARM VISITS, 165 PREMIUM STRAWS & 165 INSEMINATIONS

AI Technician Service

THE CORNERSTONE OF OUR BUSINESS

Pride in our team of AI technicians.

As a group, they deliver the highest standards of AI service in the country. This is achieved through technical excellence in semen handling and insemination coupled with the ability to cope with the intensity of the Irish breeding season. Each technician's commitment to providing the best possible service to herd owners is unrivalled. Munster Bovine AI technicians consistently achieve high conception rates which for you the herd owner, drives a **high 6 week calving rate and a low empty rate.**

THE BEST TECHNOLOGY

Each AI technician is equipped with the best equipment to optimise semen handling and insemination. All technicians also use the latest handheld technology to ensure accuracy of work and a seamless delivery of service.

THE POWER OF THE TEAM

With over 160 technicians covering the Munster area, the team has the scope to deliver for all our customers at peak when over 12000 inseminations per day are completed. As well as covering each other, they can also team up for large sync jobs when required.

THE BEST SUPPORT

A huge background effort goes in to supporting the technician service especially during peak. From the lab team in Mallow to our courier team that deliver liquid Nitrogen and semen to the 25 depots around the region, a huge logistical effort takes place during peak.

THE BEST BACKUP

Our technicians have the full support of their area managers, the veterinary team, the laboratory team and breeding advisors and are encouraged to seek advice for any queries they or the herdowner might have.

TRAINING AND MONITORING

Our technicians receive continuous training to ensure they are fully up to date with genetics and any new technical developments. All Munster Bovine technicians are continuously monitored to ensure they are achieving the best possible performance and operating to the highest standards.

AI Calls
1800 251 020

AI Technician Academy

DESIGNED TO DELIVER PERFORMANCE

Our technician academy is the envy of the industry. Every technician undergoes an unrivalled training regime before they qualify to go on the road.

**YEAR
1**

Following a recruitment process, interview and screening, **trainees are selected.**

Completion of DIY training - 2 full theory days and 3 practical days.

Intensive practical training - Twice weekly for 10-12 weeks

Practical assessment - Trainees with the ability to become excellent technicians are retained in the training programme.

Continued intensive practical training - Increased focus on semen handling, hygiene, and efficiency.

Get a provisional **AI technician licence.**

Each trainee **set up by ICBF with a handheld** for the upcoming breeding season which allows monitoring.

**YEAR
2**

Trainee teams up with an experienced technician for the main breeding season.

The trainee will complete a **sufficient no of inseminations** spread over a large number of herds.

All trainee inseminations are **recorded on their own handheld** which will allow performance to be monitored.

Preparation for and **completion of DAFM exams** to become fully licenced AI technician.

**YEAR
3**

Following a review of year 2 performance and further training, **the trainee is deemed ready to go on the road as a fully trained Munster Bovine Technician** and is supplied with all the necessary equipment.

Their **workload is managed carefully** for the first year to ensure they can cope comfortably and achieve the best results.

Continuous monitoring and training.

The Technician training academy is the responsibility of our Technical Manager and Veterinary surgeon Dennis Howard. Experienced Munster Bovine technicians Tadhg Egan and Denis Collins are also involved in every practical session at our training facility and provide invaluable tuition and guidance to our trainees.
